THE WAR.

News, Gossip, Mumors, and Lies from Black Republican Sources. PARTICULARS OF THE BATTLE IN MISSOURI.

Dispatches to the Associated Press KANAAS CITY. Mo. July 8.—We are indebted to the Kanaas Journal for a copy of the Fort Scott Democrat of the 7th containing an account of a battle between the Missouri State troops under Gov Jackson and Gen Rains, numbering by their accounts from 10 000 to 13 000 and the United States force under Col Sigel, numbering 1,500 in all. Our aformant says that on Wednesday, the 31 inst, the State troops left Rupe's Point and moved South to Murray's six miles. On Friday morning at 8 o'c ock, they broke up camp and marched South in the direction of Carthage, the county-seat of Jackson county. At Abbay Fork, seven miles North of Carthage they were met by Col. Sigel with 1,500

men, who immediately gave them battle.

The first onset resulted in the State troops being driven back some distance, and the officers ordered a retreat. The centre gave way, but the order not being heard on the flanks, the advancing United States troops were in danger of being surrounded. The flanks finally fell back, slowly keeping up the light with their artillery, which made fearful havon among the enemy's ranks. At the crossing of Dry Fork our lines were very near being taken, when by the timely arrival of 200 Union men from Shoal Creek they crossed with a loss of but five killed and two mortally wounded.

The battle continued, the United States troops

alternately fighting and retreating until dark, when they reached Carthage, having crossed Buck Branch and Spring river. On the way the fighting was all done with the articlery, Col. Siegel retreating as soon as they ad-

The whole country was laid desolate, fences torn down, crops trampled into the ground, and houses plundered. He met parties of women who stated that everything had been taken from them by the State troops except what they had on their backs. The retrest was conducted in a style worthy o

veteran troops, and with as much coolness as upon parade. It was only the overwholming odds on the side of the Secessionists that enabled them to carry the day. The victory was really with Seigel. It was reported that a night attack had been roule on Seigel, and 400 of his troops killed and 500 taken prisoners, with three pieces of smillery, but our informant says he overheard a messenger from the secession camp say that they had killed only one man, after entering Carthage, and had taken no Jackson announces his intention of fortifying him

Indiana 9th, Captain Mondy, advanced round a hill to the south of this point and entered a thickly wooded hill on the left of the road. They had nearly reached the summit when 400 con-ceated skirmishers fired by platoons on them, kill-ing private William Garber, from Bradford Station, Indiana. He was shot through the forehead.

The Indiana boys fell back upon their regiment, which was advancing on the right of the read, but not till they had brought down some of the rebais, who still held that hill, as an order not to advance was given. We have thus occupied this strong po-aition communding the roads to Philippi and Mor-gantown—completely cutting off the rebels on this side. Three pieces of artiflery, the 7th and Sah Indians and Ohio 14th, guard the road from Laurel Hill, with strong pickets thrown out to hold every point occupied. Skirmishing is constantly going on. We shall advance as soon as intelligence is received from McClelian's column, which is now moving up from Beverly. Our troops came through in
admirable order, arriving here at 7 o'clock. The
citizens report the robels very strong.
CONSTANT AND BLOODS SERMINERS AT BELLINGTON—

LOSSES ON BOTH STDER. Correspondence of the Cincinnati Commercial.

Basilisorov, Va. (near Grafton) July 8-P. M .-The tidings from McClellan are that he is supposed to be advancing from Beverly. There has been sharp skirmishing all day on the wooded knoll to the left of Beelington, and along the line occupied by the Ohio Fourteenth. Our battery threw seve-ral shells and a few rounds of grape and canister into the enemy, suppresed to be one thousand strong, wellwho yet hold the knoll. About fifty of the Indiana ninth and sixth and Ohio fourteenth raihed and rushed into the woods as the shell burst and shot down a number of the rebels, who in turn railied strongly and drave them back, killing John Smith, of the Indiana six h, and wounding three others slightly. Our boys found forcy or firty dead bodies in the woods, and brought off uniforms guns do.

Crops in the South. A recent visit to portions of Alabama and Missis-lepi has farmished us with some statistics regardg the prospect of the crops in these States, which ay not be without interest to our readers. The whole of Southern and Middle Alabanea, and that region of country in Mississippi lying adjacent to the Mobile and Ohio railroad, extending more than hree hundred miles, have within the last two weeks been favored with the most abundant and reasonable raise. We were told by the planters that they had neither too much nor too little, but precisely erough. It will in most cases prove amply sufficient it is thought to insure first quality

rops, even should they fall to get more during the

ntinuance of the season. As a general thing, from two to three times as such corn as usual seems to have been planted, and a better yield to the sore, from present indications, has never before been promised in the history of the com try. Whole fields that ten months since were white with the cotton bloom, now present one vast and interminable wild-raess of corn, extending in the distance as far as the eye can reach. Certainly we have never before seen such excellent and bountiful crops of this indispensable cereal any-where in the South as now appear upon the prairie lands of eastern Mississippi. We were told by an lotelligent planter of Octobeha county, that it can, is all . probability, be purchased this fall in that vicinity at as now rates as twenty cents per bushel. Few, if any, anticipate sales over from forty to fifty cents in any part of the Confederate States. Nor is this estimate at all improbable when we come to consider . such statistical facts as can easily begathered from various sources. Poor lands in some counties, we are reliably informed, which last yielded only from five to ten bushels, will this year produce from twenwere killed. McCulloch sent forward 2,000 men to ty-five to thirty. Some farmers assert that they will raise on an average seventy five bushels to the acre. We met one planter, resident 14 Marengo, Ala, who has heretofore bought nearly all the curn used on his place from the West, who, this fall will have for sale at least twenty thousand bushels. These, with many other isolated facts, leave no doubt in our minds as to the truth of the encouraging state-ments heretofore made upon this subject by the newspaper press throughout the South The impression seems to prevail that western corn, such as has always found a ready market in the South, if delivered in the Guif States, will not command in three months from to-day as much as twenty-five cents. If such in reality be the case, the wast accomulation of coro in the granaries of Ohio, Iti-nois and Iodiana will doubtless subserve the purpose of manure during the present season, in lieu

of being excharged for Southern go'd. The cotton crop, in the sections above alluded to, seems to be about an average so far as quality is concerned, but certainly falls somewhat short in quantity. With favorable weather the cotton lands will produce quite as abundantly as usual. The whole erop in the South will evidently fall below that of last year by at least a half million bales, some say more.
Representations made to us by persons from other sections of Alabama and Mississippi, also from Georgia, Louisiana and Texas, give accounts equally

as encouraging as the above. Texas, we were told by a gentleman just from Galveston, will make enough grain of all kinds to supply the wants of her citizens for two years to come.

Thus has providence, in his all-wise beneficence, secured to our new born but gigantic and vigorous Republic a victory more important than one achiev-ed at arms upon the field amid the slaughter of untold battalions of the enemy .- Memphis Appeal,
